

TITLE 2400 - TIMBER MANAGEMENT

2444.1 - Scale Records.Zone Scaling:

Rather than each District having its own scaler, ~~the use of~~ a zone scaler will be used. The use of a zone scaler does not relieve the District that is administering the contract of any of the responsibilities set forth in the Timber Sale Contract.

Responsibility of District Ranger to whom Zone Scaler is assigned:

1. Coordinate with other Ranger Districts using the zone scaler.
2. Resolve problems between Districts concerning zone scaler such as: scheduling, scaling area, etc.

Responsibility of Zone Scaler:

1. Keep Districts informed of scaling problems.
2. Make sure sample envelopes are adequate.
3. Check on branding and accountability in the mill yard.
4. Provide District with completed scale tickets.
5. Send Districts Log Removal permits from sample boxes.
6. Check for adherence to sampling procedures.
7. Biweekly send the Forest Supervisor a summary report of findings concerning all aspects of accountability and sampling procedures.

Responsibility of District Administering the Contract:

1. Furnish completed scaler's information form R2-2440-3.
 - a. Three copies to Supervisor's Office.
 - b. One copy to Zone Scaler.
2. Furnish purchaser Log Removal permits.
3. Provide sample envelope box.
 - a. Locked with Forest Service lock.
4. Provide sample envelopes.
5. Compute the sampling ratio.
6. Audit scale tickets.
7. Complete R2-2440-2, Log Load Receipt Summary, and
BH-2400-2 Log Scale Summary Journal or R2-2440-11 or R2-2440-20.
8. Complete TSSA reports.
9. Notify Supervisor's Office if check scale is desired.
10. Insure compliance with Log Accountability procedures.
